Nights Of Observing Movies Intentionally

## MOVIE NIGHTS?

Yes, you got it! We will be watching movies together throughout the school year. One night for Middle School and one for High School a month

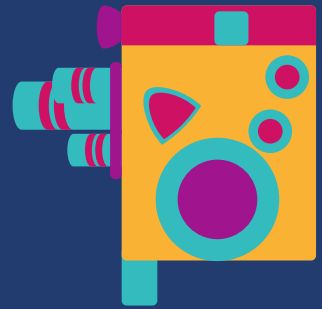

## INTENTIONAL

Often when we watch a movie, show, or video on line we just consume the content. We watch for entertainment purposes and do not spend much time reflecting on what we have heard or seen. Through our consuming of this media, there is little intention to ask questions about how this will affect our hearts.

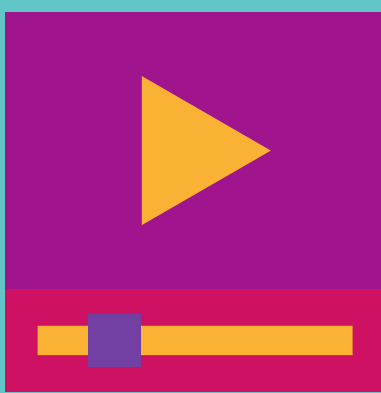

## OBSERVATION

This means that students will observe the movie looking for ideologies, messages, and half-truths, etc that are being communicated. After the movie we will ask questions to see what students have observed. Our hope is that students will begin to recognize that the content they watch and listen to affects them. We hope students will take these tools to better prepare them in deciding what to consume, and/or not consume.

## WHAT MOVIES?

Great question, and a tough one. I will be working on a list of movies that fit the age group, and are appropriate. There will be 3 movies each night that the students can pick from to decide what we watch.

## WHERE?

Movies will be shown at different locations (i.e. outside, PD, student home, etc). Look for communications via remind, Instagram, and email to find out where your movie night will be.

## DATE & TIME

Middle School: 9.10 (Outside @ The Ripley's)  
High School: October TBA

8:00 - 11:00 pm

Movie & Discussion
